

SENATORIAL CANDIDATES.

It is generally believed that Judge Lewis, of Virginia, Hon. F. A. Tittle, of Virginia, Hon. Wm. Woodburn, of Virginia, Hon. Thos. Wren, of Eureka, Hon. W. W. Bishop, of Eureka, and Wm. Sharon of San Francisco, will be candidates before the Republican party for the high and exalted position of United States Senator. As yet Mr. Tittle is the only one who has positively informed the people that he is an aspirant for the place. All the gentlemen named, with the exception of Sharon, are actual residents of the State, and upon this very fact are depending of the office in preference to the gentleman from San Francisco. If these gentlemen are candidates we do not understand why they do not announce themselves, and come to the front, help to organize the party, and show Mr. Sharon that the people of Nevada are not in need of an outsider.

THE HOLD-OVER SENATORS.

The impression seems to have been given out that nearly all of the hold-over State Senators were in favor of Sharon's re-election. It has been claimed that at least twelve of the fourteen were owned by Mr. Sharon. The truth is that Sharon is not the first choice of more than two, if any. So far as we know there is not a hold-over who has dared to pronounce in favor of him. Kaiser and Powdrell will not vote for him under any circumstances; Gibson is inclined to favor Tom. Wren; Wheeler and King are friendly to Tittle; Haines leans toward Woodburn; Gallagher is divided between Tittle and Woodburn; Shepherd will, of course, vote for some Democrat. Thompson, Doolin, Dayton, Perley, Miller and Farrell have not yet given any indications of their preferences.

PRESIDENTIAL.

The result in Illinois is a decided victory for Grant, and likely to insure him the nomination. The action of Minnesota in throwing overboard Blaine and picking up Senator Windom, is an injury to our favorite, from which there is but slight hope of recovery. The result in the two Conventions brings to our mind Greeley's statement: "Grant has never been beaten, and never will be."

Resolutions were adopted by the Minnesota Republican Convention that while not ignoring other candidates and their merits they were loyal to their own distinguished son, whose qualifications were great and fully appreciated, whose purity and personal fitness, unswerving Republicanism and trained statesmanship education endeared him to the hearts of his constituents; they therefore presented Windom as a candidate for President, as one who would win the campaign and harmonize all interests, instructing the delegates to Chicago to use all honorable means to secure his nomination as the first choice of the Republicans of Minnesota.

Interviews with nearly 100 farmers from various sections of Dakota show that the universal conviction among them is that the crop prospects were never better. Wheat is twenty per cent. better this than last year at the same date. The yield of wheat, tributary to the Northern Pacific last year was 6,000,000 bushels. The acreage and prospects for 1890 indicate 10,000,000 bushels. Wheat seeded just before the last storm, three weeks ago, is stronger, righter and better than later seeding.

United States Senator John B. Gordon, of Georgia, has resigned.

Challenge from Rowell.

Rowell, the pedestrian, writes to the London Sporting Life, in reply to the offer from America to match Hart and Dobbler against any two Englishmen, as follows: "I am ready to compete with Hart, Dobbler or any other man in the world for £500 or £1,000 a side, but the match must be open (nobody barred) and the winner to take the entire stake and half the gate money. An international match between Hart, Dobbler, Brown and myself in New York cannot be arranged at present, as Brown's backers are unable to leave England and wish to look after Brown themselves in any race wherein they put up money on him. Hart, Dobbler, or any other American pedestrian would have a good reception in England, and as Brown's backers offer to stake £500 I shall be glad to stake the same amount and make a £500 sweepstakes with Hart, Pegram, Dobbler or anybody in the world at Agricultural Hall, London, three months after signing articles. I agree to allow the American representatives £100 altogether for expenses. After my last victory in New York I left a deposit of £100 in your hands. Any one covering it can rely upon having a match."

NEWS OF THE MORNING.

In Kansas 564 miles of railroad have been built within a year.

The Democrats of the Third California District have renominated Berry for Congress.

Nebraska passed resolutions endorsing Blaine, but did not give positive instructions.

Ex-Governor Joseph E. Brown, of Georgia, has been appointed United States Senator from that State, vice Gordon, resigned.

Nothing new from Illinois. The Convention was still in session last evening, still struggling with the Cook county matter. Red-hot.

Dave Terry and Wm. T. Wallace were nominated for Electors by the California Democrats. W. B. C. Brown was put on from the Second District.

The Dakota Republican Convention held at Fargo chose C. H. McCoy and Porter Warner delegates to the Chicago Convention. They are for Windom if he has any chance otherwise for Blaine.

The Workingmen's Convention of California elected four delegates at large to the Greenback-Labor Convention: Denis Kearney of San Francisco, A. Musselman of Solano, John Robinson of Santa Clara and Stephen Maybell of San Francisco.

Patrick J. Smythe, the recently elected Home Ruler member for Tipperary, has placed his resignation in the hands of his constituents. He says events since the election bring home to him forcibly the truth that he is not in harmony with what appears to be public opinion in Ireland.

The New York Herald has a table of Democratic delegates, showing that thus far Tilden has 153, Hancock 76, Thurman 44, Bayard 9, Field 10, English of Connecticut 2—leaving Tilden a majority of 13 over all. The Herald has also a table of Republican delegates thus far elected to Chicago, showing that Grant has 341, Blaine 244, Sherman 97, Washburne 14, Edmunds 34, Windom 10. Necessary to a choice, 378; yet to be elected 44.

BLAINE AT OLD TOM'S.

[New York Herald.] While with dots and dashes the telegraph was announcing that his staunch and loyal henchmen in far off Nevada were instructing their delegates to the National Convention to vote for him as a unit, "first, last and all the time," Jim Blaine, of Maine, sat in the cosy laproom of Old Tom's in Thomas street, yesterday afternoon, discussing a tory of Bass and enjoying a fragrant luncheon, clad in a coat of that indefinite shade of brown which defies conjecture as to its newness or its antiquity, this favorite son sat at an uncovered mahogany table, directly under a historic picture of the United States Senate, which was purchased for \$100 from the Old Original Tom who erstwhile kept a tavern in the immediate vicinity. The picture was purchased with other curiosities, including a Chinese Pirate's pigtail and a pair of Oxford ties belonging to the late lamented Jim Fisk. The Senator was not alone. He entertained three other gentlemen with stray bits of reminiscence of travel, chit-chat on such unimportant subjects as the aspargus that is grown in Maine, potent chicken incubators and other things that are not popularly supposed to claim the attention of gentlemen in charge of Presidential booms. But all the while he sat and gossiped the boom went on, and even as he spoke the reverberation of log rolling in Nevada was heard on the Atlantic seaboard. He seemed as unconcerned about the result of the Cincinnati Convention as his neighbor, the phlegmatic fat man, who has been a customer of the house time out of mind. When he had finished he strolled off as leisurely as an old Dutch bargher, presenting a striking contrast to the hurrying pedestrians who passed him on the street.

Mr. Blaine returned to the Fifth Avenue Hotel in the evening and was busy there with his political friends until a late hour.

A New Ore Breaker.

[Nevada Transcript.]

There is being erected at Maltman's Sulphuret Works near this city a Foster combined ore crusher and pulverizer, which arrived Sunday from the manufactory at Pittsburgh, Pa. It will be ready to start up next week. It is an exceedingly simple piece of mechanism, but to the eyes of a casual observer appears to possess those features so long sought for in connection with dry crushers. Geo. G. Allan of the Nevada Foundry is agent for the Pacific Coast for the machine. The one received will be in operation next week. If it proves a success, Mr. Allan will probably begin the manufacture of them, the cost of transportation across the continent being too great to admit of their introduction otherwise. The whole affair is very compact, being only about six feet in length. The manufacturers claim that the different sizes will break and pulverize from one to three tons of ore per hour each.

A smart young man asked a gentleman from Cape Cod, "What's the difference between you and a clam?" thinking that the Cape Codger would say he didn't know, and then the young man would pity him for not being able to see any difference between himself and a clam, but the thing didn't work. The Codger took the young man and brushed a path across the street with him, and then, after crowding him into an empty fish barrel and yanking him out again, said: "A clam wouldn't be playing with you this way. That's the difference 'twixt me and a clam." The young man had no more questions to ask.—[Boston Post.

OUR WASHINGTON LETTER.

WASHINGTON, D. C., May 13, 1890.

The Curtin-Yocum contested seat case has been settled by leaving the Greenbacker Yocum undisturbed. This is the only thing the Greenback party has accomplished this session. Curtin has had a hard experience since he left the Republican party, and now he has been rejected by the very Democrats who got him to run for Congress. The House will meet after the 15th of this month, one hour earlier than usual. From this, it will be seen that Congress is really in earnest in its endeavor to adjourn by the

FIRST OF JUNE.

The appropriations committee of the House expects to get through with the legislative, executive and judicial appropriation bill to-day. If this should prove a correct conclusion the sundry civil appropriation bill will be reported to-morrow, and it is hoped to have it passed by the end of the week. This will leave but two bills for the House to pass, the River and Harbor and the General deficiency appropriation bill. An effort is to be made next Monday to pass the River and Harbor bills under a suspension of the rules. If all these calculations should eventuate there will be but one bill to be disposed of by the House after this week—the general deficiency bill. From the above it will be seen that Congress can easily adjourn by the 1st of June. If, however, there is a tariff discussion and an effort to pass the funding bill the session may last until the middle of August. Democratic management or rather mismanagement is shown up by their neglect to

APPROPRIATE MONEY

To light the public buildings. The Postoffice Department has no gas nor water, and in a few days the public buildings all over the country will be in a like predicament, causing serious embarrassment to the public business. Senator Hill finished yesterday his speech supporting the Kellogg resolutions. It was a ferocious effort, which is all that can be said in its favor. He simply reiterated the

OLD FALSEHOODS

So often disproved by the Republicans. In fact, his speech throughout showed that intense personal hate toward Kellogg animated him rather than the justice of his case. His speech was intended to convert the doubtful Democratic Senators, but in this it failed utterly. It is even said that Hampton of South Carolina will reply to Hill in a defence of Kellogg.

Superintendent of the census, Walker is pushing his preparations rapidly toward completion. He has a night force at work.

The Sherman men are happy over Grant-anti-Grant contest. They think Sherman will get the benefit of the "split."

Quick Time to New Zealand.

The steamer City of Sydney, on her last voyage out, made the quickest passage on record from this port to Auckland. It will be remembered that she was detained beyond her regular day of departure by the fire which occurred in her hold on the night of March 15th, and she sailed from this city at noon on the 30th, arrived at Honolulu on March 27th, at 6:20 p. m. Time six days, sixteen hours and twenty minutes—fastest time ever made. Sailed from Honolulu same day at twelve midnight. Had bad weather passing the Samoan and Friendly Islands. On Sunday, April 2d, at 8:20 a. m., exchanged signals with the Company's steamer City of New York, but the weather being bad and the sea rough, could not communicate. Arrived in Auckland on April 9th, at 2:45 p. m. Time from San Francisco to Auckland, nineteen days and twenty-five minutes. This eclipses the famous fast time of the Australia by about four hours.
